Quarterly Statistical Report

This report presents key findings from the casework of the Service Complaints Ombudsman for the Armed Forces. It supplements data released in the [Annual Report](#)

Figures presented are **provisional** and are subject to later revision. They are produced in the spirit of the [Code of Practice for Official Statistics](#)

SCOAF Contacts and Referrals

New enquiries to SCOAF are logged on the casework system and are referred to as contacts. Contacts that fall within the Ombudsman's jurisdiction are referred to as 'in scope'.

The Ombudsman can refer an individual's intention to make a Service complaint to their chain of command.

SCOAF Investigations

- In Q2 2019, the Ombudsman received 65 investigation requests. This represents a decrease of 20% on Q1 2019 (81 requests) and 28% on Q2 2018 (90 requests).
- The most frequent requests were applications for review of an admissibility decision and investigations into undue delay.
- 67% of all investigation requests were considered eligible for investigating.
- In Q2 2019, 49% of all investigations carried out have been upheld in favour of the complainant to some extent (24 out of 49 cases).
- In Q2 2019, 91% of eligible investigation requests closed were within the timeliness targets. This high rate in timeliness is temporary and is due to the introduction of the triage process where certain substance and maladministration cases are resolved quickly.
- As of 30th June 2019, we have 95 unallocated substance and maladministration cases - a decrease of 35% since 31st March 2019 (146 cases).

- Substance** (merits) of a Service complaint that has been finally determined
- Maladministration** of a Service complaint that has been finally determined

- All three Services reported a twelve month increase in red flag cases over the same period.
- 57% of 'red flag' cases have been open for more than double the target period (48 weeks).
- On average (median), cases have spent 30 weeks beyond the 24 week target.

3. The median is a type of average. The median case is the mid-ranked case of all cases ranked by number of weeks spent over target. The median number of weeks spent over target is the median case's number of weeks spent over target.

Tri Service 'red flag' cases

From January 2013, the Services were tasked by the Ministry of Defence (MOD) to resolve 90% of Service complaints within a 24-week timeline. 'Red flag' cases are those which have exceeded this target. It is a Key performance indicator as set out by MOD.
