

Key findings

Referrals

- Contacts fell slightly but continued to be well above levels seen prior to transition to the SCO.
- Around 230 contacts received in Q3 2016, down slightly on the previous quarter but double that seen in the previous year (114).
- Around 90% of contacts were considered as potential SCO business – up on 2015 (~80%).
- Referrals requests fell by 18% compared to 2015, with 54 referrals made in Q3 2016 - a total of 170 thus far in 2016.
- Referrals account for 27% of potential SCO business. Around 40% of potential contacts are now passed to SCO investigators.

Investigations

- Following transition in January 2016 the SCO has received 246 requests for investigation.
- Most requests relate to gateway decisions (33%) and undue delay of some sort (33%).

Contacts and referrals

Enquiries to the SCO are known as **contacts**. Contacts which are forwarded to the Services for resolution are known as **referrals**.

Red flag

From January 2013, Services were tasked by MOD to resolve 90% of cases within a 24-week timeline. 'Red flag' cases are those which have exceeded this target.

About the data

Caseload statistics are extracted from local SCO logs as at end **September 2016**.

Data on the 24-week target are provided by Services from MOD systems. The data is true as at end **August 2016**.
